Outcome 1

Young people participating in the project have improved their employability, entrepreneurial and life skills.

Outcome 2

Existing support services are more visible and accessible to young people and their communities and are more sustainable.

Outcome 3

Communities and businesses are more cohesive and resilient.

Outcome 4

Project partner organisations have increased their capacity and capability to support young people through a more joined-up approach, sharing of best practice and access to training and resources.

Cross Cutting Themes

Publicity

- Case studies
- Information and communication to partners and stakeholders
- Merchandise

Cross Cutting Themes

Gender Equality & Equal Opportunities Sustainable Development

- Partner involvement

We created a partnership commitment document that all partners signed. This ensured they were aware of the cross cutting themes and agreed to support us in delivering them, without imposing distinct policies on all the organisations involved.

- Tracking progress

We track progress using our version controlled Action Plans. These are discussed and monitored quarterly by the cross cutting themes sub-groups, a representation of the partnership and the project 'Champion' who is responsible to progressing the plans.

- Evidencing progress

With help from Planet First we have developed a carbon footprint calculator with a view to measuring the environmental impact of Empowering Enterprise, and hopefully show a reduction in emissions over the life of the project. We have also tasked Devon Communities Together with monitoring our social sustainability and judging progress against our outcomes.
